

## Cavotec MSL – Environmental Policy

Cavotec MSL is committed to protecting the environment and controlling the usage of resources in manufacturing and related activities through continuous improvement of environmental protection. To achieve these goals we strive to comply with environmental legislation rules and regulations prescribed by the cities, states and countries where Cavotec MSL is present. These environmental rules and regulations will define objectives and targets for prevention and reduction of pollution in manufacturing, and related processes to safeguard adverse impact on the environment.

We have continued to advance our environmental and technology leadership role by proactively developing and implementing innovative solutions to reduce our customer's environmental footprint.

Cavotec MSL's objective is to encourage and facilitate the open exchange of ideas and technology that will address the needs of our global environment today and in the future.
